

## Choker Kits

1. Take 5 leather spacers and punch a hole in the center of each spacer. Measure ½” on either side of the center hole and punch holes in those locations.
2. Take 1 yard of 2mm Greek Thong and tie a knot in one end at the very end of the thong.
3. Thread thong through the top hole in one of the 5 disks. Next thread a crow bead, followed by a hair pipe followed by another crow bead. Now repeat that process until the top row is as follows:

Spacer  
Crow Bead  
Hair pipe  
Crow Bead  
Spacer  
Crow Bead  
Hair pipe

4. Next tie a knot in the Greek Thong and do the same process in the bottom holes of the spacers.
5. Finally, thread the Greek Thong through the middle holes using the same pattern EXCEPT – DO NOT TIE KNOTS IN THE CENTER GREEK THONG UNTIL ALL OF THE BEADS HAVE BEEN PLACED ON THE THONG. Now center the Greek Thong so that approximately half of Greek Thong remains on either end. This will be what you will use to tie the choker to your neck.
6. Now you can tie knots at each end of the center row of Greek Thong.

## Breastplate Kit

The process for a Breast Plate kit is identical to that of a choker except that you use 4 long leather spacers rather than 5 short ones.

Pattern can vary according to your desire.
